-

# Past Performance

**Stratos Government Services Inc - SGSI** is a single-source integrator of multiple commercial satellite technologies, providing airtime, hardware, installation, network engineering and management, customer support and value-added services globally for the U.S. Department of Defense (DoD), federal and state government agencies. CRW One Group was awarded the SGSI contract to build out their new office space location on 1400 Eye St. N.W., Washington, DC. Our duties included all data and voice communications cabling, satellite coax installation, and IT room build-out including rack, ladder rail, grounding, server and Cisco router installation. CRW One Group continues to provide IT support services to SGSI.

**Mosaic Medical** – CRW One Group was awarded the contract to provide the data and voice cabling for this new construction project in Manassas, Virginia. The 3 story facility is located across the street from Prince William Hospital, and duties included IT room build-out and network infrastructure configuration. CRW One continues to provide technical support for the facility.

**Neighborhood Housing Services of Baltimore - NHS** of Baltimore creates and sustains homeownership opportunities through customized lending and consumer education in the Baltimore Region. CRW One Group was awarded the contract to install the voice and data cabling, VOIP PBX installation, server technology, at their new facility at 819 Park Ave., in Baltimore, MD. CRW One Group does hold the annual IT maintenance contract.

**Secure Care Services, Ltd.** Provides housing and support services to individuals with disabilities and other individuals who need support services to live in and fully participate in the community. CRW One Group was awarded the contract to install all the voice and data cabling for their new corporate headquarters facility in Silver Spring, MD. All services included multi-site voice installation. CRW One Group continues to provide all data, network, hardware, and voice support services.
